

A photograph of a bar interior. The bar counter is made of wood and is illuminated from below with blue light. Behind the counter, there are shelves with bottles and a decorative hanging light fixture with a metal frame and pink and red floral decorations. The ceiling is dark with recessed lighting. The overall atmosphere is warm and sophisticated.

COMPANY PROFILE

EASTLINK
CUSTOM HOSPITALITY FURNITURE

East Link Furniture

Over 50 years of experience in the project furniture market attests to our ability to meet the design, quality and budget needs of our clients.

Specializing in fine furniture and materials for the hospitality industry, including case goods, upholstery, fabrics and leather, we work closely with designers and clients to create custom furniture suited to our clients designated spaces.

Creating furniture for spaces such as public areas, F&B, guestrooms, presidential suites and VIP casinos are some of our specialties, and we work with our partner factories throughout Asia to deliver and install only the best quality finished products.

EASTLINK
CUSTOM HOSPITALITY FURNITURE

Innovations, Trends and Design

Innovating with materials, production, design quality control, sustainability, and aesthetics, allows us to continually improve on each our processes.

It also allows us to maintain our lead in new trends so that we can help you maximize the benefits derived from your hospitality space.

As Edison encouraged his staff with the words **“There’s a way to do it better... find it!”** at East Link, we enjoy following this approach.

Specialization, Custom and Variation

We love variety and have a strong niche in creating custom furniture and variations on the selected theme in smaller production quantities than other companies.

This means that working with us will allow you to better create an organic or natural space, so your customers will always feel comfortable and relaxed.

Like snowflakes, variations can be endless. Let us help **give personality and character to your spaces** through the use of specialization and variation.
